General Collection Information

- **What is reported?**

- Grade (Course Grade)
- Grade Status
- Local Classroom Code
- Term

Required to be reported for any course that earns High School Credit

*Note that when reported, grades for middle school (grades 6-8) math and English courses will be utilized in the Early Warning System. DEW therefore encourages the reporting of grades for these courses.

Grade

The grade assigned to a student for a particular term

Valid Options

A-D, F The traditional A-D or F grade for a student, or the equivalent grade for a course if the course does not have a grade and is not pass/fail

I A student's work in a course is incomplete at the end of a term, and the district's or school's policy allows the student to complete the work after the end of the term

P A student has passed a course that is evaluated on a pass/fail basis

U At the time of reporting, a student's grade for a term is unknown

W The student withdrew from the course before earning any credit in the course

5

Grade (Course Grade) in Campus

Reports for all courses in grades 9-12 or those marked as High School Credit courses (any grade level).

Additional Information:

- If the Grading Task is not marked as State Reported and the student has a Roster End Date prior to the end of the section, reports as W.
- If the section has ended with no grade reported, reports as U. To report a final grade, the grading task must be marked as Final.
- If any reported grading task has Course Credit associated with it, all grades marked as State Reported are reported.
 - A grade of I: Incomplete only reports if the term is over and no grade has been given for the reported grading task.
 - A record does not report if the student does not have a grade, unless the term has ended and the student has withdrawn.

NR	Not reportable to the Department: a term code that may be used for a local course that is not reported to the Department on a Course Master (CN) and Student Course (GN) Record (such as a summer school course or transfer credit)

10

10

The length of time the course is taught.

This field looks first at the Code entered on the Grading Task being reported. If a Code is entered (Y, S, T, Q, or X), this field reports that code followed by the number of the term that the Grading Task is assigned. If a Code has not been entered, this field considers the number of terms, the section, and the term that the grade/grading task is being reported.

- If 1 term, report as YE
- Otherwise reports a character indicating the number of terms followed by the sequence of the term that the grade is from:
 - If 2 terms, reports as S1 or S2
 - If 3 terms, reports as T1, T2, or T3
 - If 4 terms, reports as Q1, Q2, Q3, or Q4
 - If 6 terms, reports as X1, X2, X3, X5, X5, or X6
 - Otherwise reports as OT

Reporting Instructions. Select the term code that most closely matches the terms used for grade reporting within the district. Note that the term code used will usually be related to the Semester Code (CN090) reported for the course on the Course Master (CN) Record, but the two codes will not necessarily match exactly.

For example, an all-year course (e.g., a course reported with Course Master (CN) Record Semester Code Element option 3) may not have a summative all-year grade calculated; it may have a final grade calculated for each semester. By the end of the year, Student Course Grade (FR) Records would be reported with final grades for the S1 and S2 terms, no record at all for the YE term, and interim (I) grades for Q1, Q2, Q3, and Q4 if the reporting district is teaching the course and issues grades/report cards four times per year. If another district or contractor is actually teaching the course outside the reporting district, then the quarterly grades are encouraged but not required to be reported.
