

Infinite Campus User Group Meeting

October 21, 2026

Covering Updates:

2611, 2615, 2619, 2623, 2627, 2631, 2635, 2639, 2643

Campus Learning*: Quizzes

Settings

A new option to allow teachers to control whether a student can submit incomplete quizzes is called “Require Responses before submitting.” If unmarked, students can submit the quiz even if they haven’t answered all questions. New options have also been added to Randomize Question order. Giving teachers the option to specify the Number of questions to Deliver, and Points per Question. So, if the teacher reassigns the quiz the students will see the same questions, but if the student reattempts the quiz, they’ll get a new randomized set of questions.

Campus Learning*: Quizzes

Math Equations

The option to add Math Equations to text fields has been expanded into Numerical, Matching and Ordering question Types. For the Numerical type of quizzes, letters are not accepted, only numbers.

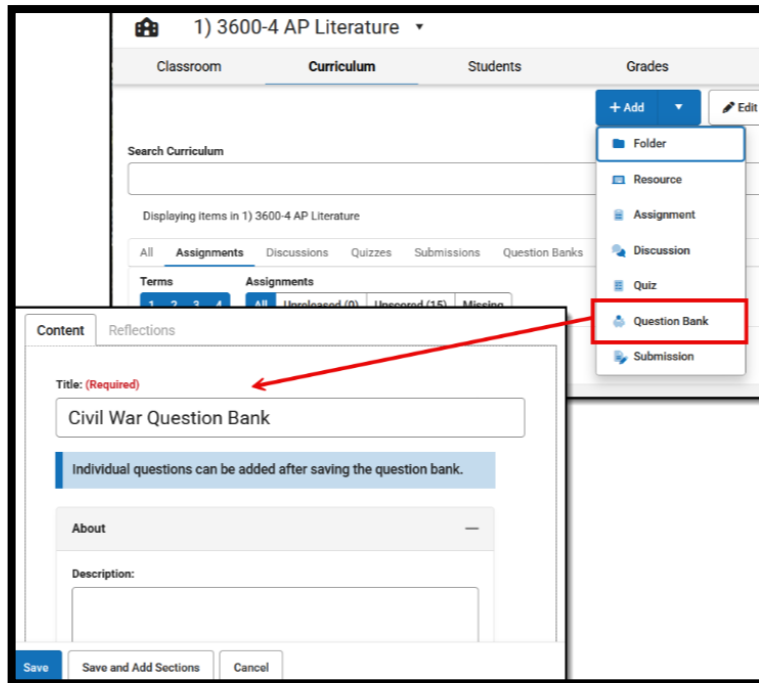

Campus Learning*: Quizzes

Question Bank

Question Banks are a group of quiz questions that are only visible to teachers and other curriculum staff. Banks collect questions together to make it simpler to store, access, and reuse quiz questions.

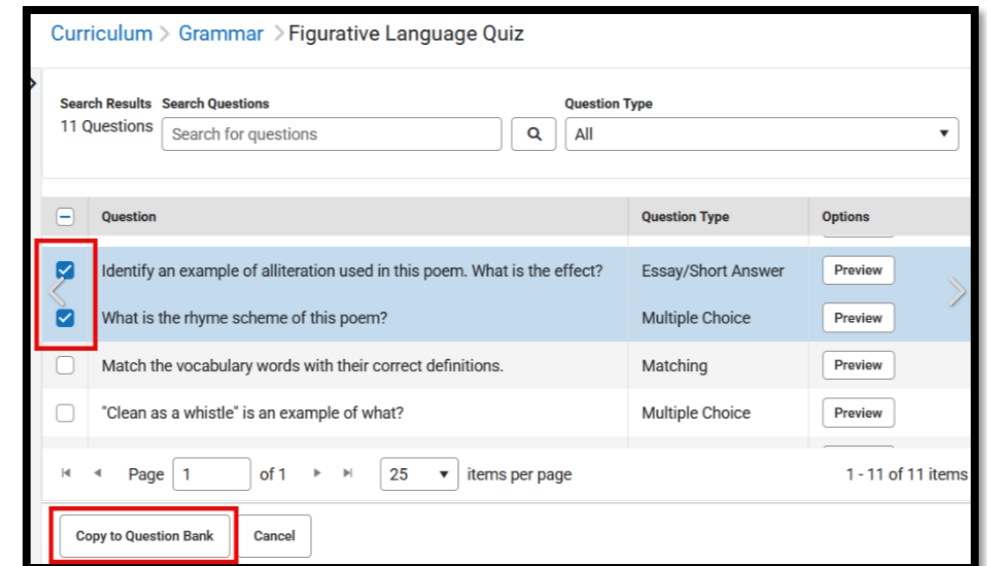

You can create a question bank from scratch or by copying questions from an existing quiz.

*One recommended workflow is to create question banks in the My curriculum tool, which can then be used to make quizzes in any of the teacher's sections.

The screenshot shows the 'Add' menu in the curriculum tool. The 'Question Bank' option is highlighted with a red box. A red arrow points from this box to the 'Title' field in the 'Question Bank' creation form below. The form has a title field with the text 'Civil War Question Bank' and a description field. At the bottom, there are 'Save', 'Save and Add Sections', and 'Cancel' buttons.

← OR →

The screenshot shows the 'Figurative Language Quiz' page. A table of questions is displayed with columns for 'Question', 'Question Type', and 'Options'. Two questions are selected with checkboxes: 'Identify an example of alliteration used in this poem. What is the effect?' (Essay/Short Answer) and 'What is the rhyme scheme of this poem?' (Multiple Choice). A red box highlights these two rows. At the bottom, there is a 'Copy to Question Bank' button and a 'Cancel' button.

Question	Question Type	Options
☒ Identify an example of alliteration used in this poem. What is the effect?	Essay/Short Answer	Preview
☒ What is the rhyme scheme of this poem?	Multiple Choice	Preview
☐ Match the vocabulary words with their correct definitions.	Matching	Preview
☐ "Clean as a whistle" is an example of what?	Multiple Choice	Preview

Census: SSN Purge Tool

The SSN Purge tool will permanently delete the listed core SSN values for the entire district and hide SSN fields from the interface so no new data can enter. With 2615 running this tool now removed the SSN field from the Advanced Search menu.

It is advised to “Schedule SSN Purge” overnight or weekends (*a pop-up will appear to select specific date/time*).

When you “Run SSN Purge” a warning pop-up will appear. To continue, select Run SSN Purge.

SSN Purge ★

System Settings > SSN Purge > SSN Purge

This tool is intended to help protect your users by **permanently deleting the listed core SSN values** and **hiding those fields** from the interface. Running SSN Purge will delete and hide for the entire district.

You can choose to run the purge immediately or schedule it for a later time (recommended for larger databases).

Custom or localized SSN fields created by administrators will not be affected.

WARNING: This action cannot be undone.

Database columns affected by purge		
TABLE NAME	COLUMN	CURRENT RECORD COUNT
RecordsTransfer	studentSSN	0
PlanStudent	ssn	0
IdentityHistory	ssn	0
StaffMemberSync	ssn	0
Identity	ssn	0
EvalStudent	ssn	0

SSN Data is currently purged from your system.

SSN data was last purged from the system 09/30/2025 14:33:00 -0500

Schedule SSN Purge

Run SSN Purge

Core Attribute Dictionary

The User Interface of the Core Attribute Dictionary and Custom Attribute Dictionary tools was updated to current modern UI standards, improving usability and accessibility. Also, a search field has been added to both tools, allowing users to quickly find a specific attribute.

- ▶ AcctProfLevelGroup
- ▶ AcctProfLevelItem
- ▶ ActivityRegistration

Forms: Upcoming Updates

- Custom Forms can now be configured to allow guardians and students to initiate the form process in Portal via a new setting in the Form Setup tool.
- Form Statuses and Status groupings have been added to clarify those needing intervention.
- A NEW Student Form Center was added as a centralized dashboard for forms. Allowing administrators the ability to easily find forms that require intervention, including those initiated from the Portal.
- Custom form tools were moved to a new folder within IC: Student Information > Custom Forms and Custom Modules. This includes the Custom Form Batch Setup, Custom Form Setup, Custom Module Setup and Student Form Center Tools.

Messenger 2.0

Updates and Changes

- ✓ Messages sent with no Recipient now display a “No Recipient status in Sent Message Log 2.0
- ✓ The Send button on Step 3 of the Messenger 2.0 process has been changed to Review.
 - ❖ This allows users to review recipient counts, view more recipient details, or return to the message before sending.
- ✓ The Cancel Message button has been moved out of the View Details side panel. It is not displayed under the Actions column on the In Progress tab of the Message Activity Card to easily locate to cancel messages sent in error.
- ✓ A label has been added to Emergency messages in the Scheduled, In Progress, and Sent tabs of the Message Activity card and will be displayed at the top of the grid in each tab.
- ✓ Using the Send Now option will immediately appear in the In-progress tab, instead of the green loading indicators.

Ohio: Homebound

A new Homebound program tool was added for Ohio to track and report students who are considered homebound. This tool allows a district to record a student's start and end dates as a Homebound student, along with any applicable comments regarding the student's classification.

Online Payments: Tax Details

The payment setup has been updated to include a Tax Details section where users can enter an email address and view the Stripe 1099 tax form. Once users select paperless delivery, they can add an email address for the 1099 communication and later access the tax form within the Tax Details section.

System Settings > System Settings Payments > Payment Setup > Tax Details

Tax Details

Tax Form Delivery

To select Paperless and view 1099 tax documents through this section, you must enter a valid email address. Only one delivery method can be selected. To update your mailing address, go to [Vendor Management > Business details \(above\)](#).

Tax Form Delivery Method

- ☐ By Mail (4321 109th Avenue Northeast, Blaine, MN 55449, US)
- ☒ Paperless

Email Address: **(Required)**

Communication about 1099 processing and delivery will be sent to this email address.

Enhancements:

--	Category	Details
2615	Ad Hoc	The Ad Hoc Reporting Filter Designer tool has been updated to include filters for pronoun names and pronoun codes, beyond the numerical value pronoun IDs.
2623	Assessment Center	The Assessment Center was improved to allow single column to be mapped to various fields. In the 2635 update test copy functionality correctly preserves mapping configurations.
2615	Census	Address Search functionality has been improved to include results without requiring specific house numbers.
2627	Census-Gender	Enhancements have been made to Gender Display options across the system, forms and reports. Users can now control what gender information is shared and with whom.
2619	Fees	Fees now flags disputed payments and blocks payment and fee voids until resolved and then will resume normal behavior.
2615	Food Service	The Adjustment, Item Summary, and Transaction Detail reports have been updated to enhance their usability.
2619	Instruction	Assignments can now be deleted even if they have student work submitted and/or scored.
2631	Instruction	Teachers can now send messages to students with a future roster start date before the first day of the term using Classroom Messenger.
2635	POS	The Campus Point of Sale desktop icon has been updated.
2643	Reports	Attempted Reports update in 2639 cause reports to error out. They have reverted the affected changes so the Grades Report should generate as expected.
2639	Scheduling	Section Rosters are now sorted in student last name, first name order.
2627	Security	To improve security, passwords inserted into the database are automatically hashed nightly and is on by default.
2623	SpecEd	Users can now publish draft evaluation documents to the Portal. There is a new tool right, Publish Draft to Portal, under Evaluations.

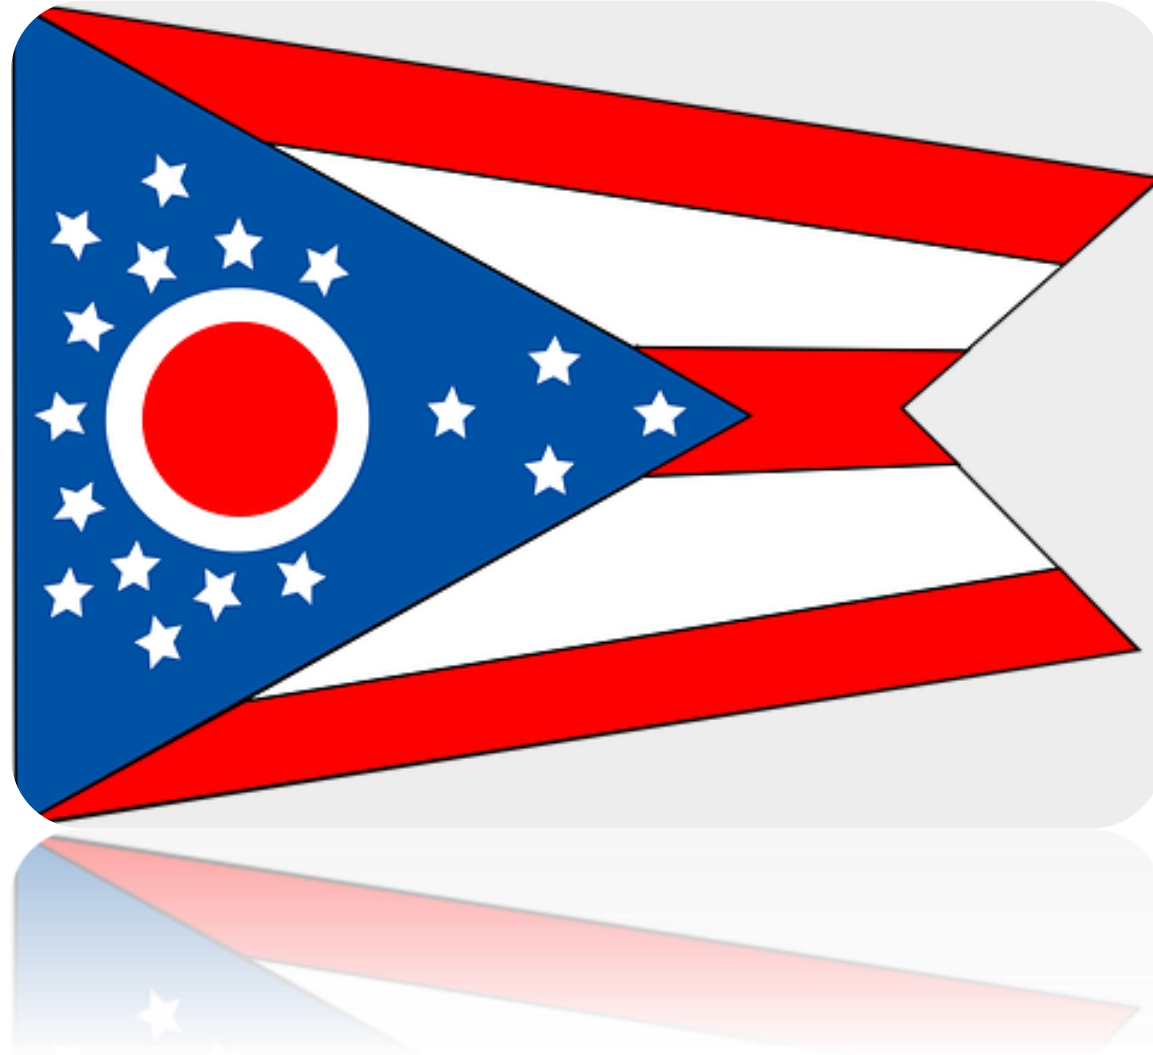

Corrections:

--	Category	Details
2639	Academic Planning	An issue that was causing credit amounts in Course Plan Templates to display incorrectly has been resolved.
2643	Attendance	School/calendar name properly appears on the ADA/ADM Report - CSV
2643	Census	An issue in which the mailing labels report incorrectly printed multiple labels for students when the "Students" option was chosen, showing addresses for all primary households associated with the guardian, even if the student was only a member of one of those households, has been resolved.
2639	Census	The mailing label report should now generate in DOCX, and the Census by Birth Date Report has been fixed.
2639	Courses	Some checkboxes on the Course tool were erroneously marked, due to an earlier fix, but has now been restored.
2639	Food Service	The Transaction Summary report should now display correct information and generate the report, when multiple schools are selected.
2643	Instruction	Various reports were showing current students as inactive. This is now fixed
2643	Profile	Homeroom teachers name should now be displayed correctly on the student's profile page.
2643	SpecEd	An issue where the day calculation was not working correctly in certain plans, has been fixed.
2643	Transcript	Corrected an issue where a course with a posted grade appeared in the In Progress section and as earned in the year it was taken. Scheduled courses now display in the In-progress area until it is posted. After the grade is posted, the course will only appear as earned.

Current Issues:

SIS	Issue/Work Around
SIS-203195	Transcript Issues: the current workaround is to refresh the student's Transcript page whenever the issue occurs. Alternatively, users can navigate to another tab or page and then return to the Transcript tab, which should cause the Transcript information to display correctly.
SIS-54104	When the Master Schedule Report is pulled it is pulling IEPs that are not there. No workaround.

Ohio Specific Details

--	Record	Details
2623	CTE	The list of CTE Program of Concentration codes are updated (F6 and R7) and the Following codes were added: K1, K2, K8, F8, and R9.
2643	Dictionary	The descriptions for the Primary Disability and Retained Status values were updated.
2631	DN	A New field was added: CCPROINFO, and the code STUKGBRDAY was removed.
2615	FA- CL	A new assessment type (CL: College-Level Examination Program) was added to the FA extract.
2643	FA	Logic for the GX Assessment Type is updated so the setup and student test of record may have a blank grade level and still report the 09-12 th grade assessment record. Also, the CSV file format was updated to match the 26-27 requirements by removing the filler and name fields.
2623	FA	The Q option was removed from the Score Not Reported dropdown on Ohio's Assessment Tool,
2643	FA- MA	A new option of MD: Mathematics Diagnostic, is added to the Assessment Type dropdown on the Test Setup Tool.
2631	FC	The new Student Withdrawal Override (FC) was added.
2631	FM	The Student Detail Attendance (FM) report was moved off of the OH Extracts editor to reside directly under Ohio State Reporting. In 2635 Additional attendance logic was added to count students with one hour of Homebound Tutoring as in attendance the full day
2627	FM/ FS	Extended Day minutes were updated to report correctly in the attendance calculation for the Ohio FS and FM extracts.
2635	FS	An issue with the incorrect fixed-width file length was fixed. In 2627 All filler fields (<i>last, first and middle names</i>) were removed.
2643	GD	Several updates were made to the Student Discipline (GD) Extract: Logic to report carry-over resolutions spanning multiple school years was added, and the logic for reporting Discipline Reason 1 was updated to report the mapped State Event Code based on the event to which the resolution of record is connected or blank.

Additional EMIS Notes:

Extract	Description	Work Around	Status
GQ	Duplicate Program Codes	Manually remove the duplicates	In Review
FA- MD	MA: Math Diagnostic assessment type missing	No Work Around	In Review
DN	Shortened Day Event not reporting minutes	In addition to entering the start and end times for the shortened day, also enter the instructional minutes with the Day Event	In Development
FG	Student enrollment date is keeping them from being included in the Student Contact Module in ODDEX	Manually change enrollment date in file to be included in current FY	--
FS	CSV State Format Version	Use the Fixed Width Format	--

Questions?

We are here to assist throughout this process, so please feel free to contact our META Help Desk for any additional guidance.
